\*If your barn is bringing 10+ horses, please complete forms. All horse entries must be current with the show office at the time this form is submitted; failure to do so may result in delays with receiving the horses' back number.\*

Throughout the stay, please minimize horse-to-horse contact and follow all biosecurity measures noted below. Early identification is critical when dealing with disease outbreaks, and this requires cooperation from everyone within the community.

- Complete and record temperatures twice- daily on the provided log kept visibly posted at your barn,
- Monitor horses frequently for signs of disease throughout your stay.
- Immediately report horses with elevated temperatures or symptoms to SHP management.
- Limit horse-to-horse contact.
- Limit horse-to-human-to horse contact.
- No grazing horses.
- Avoid submerging the end of water hoses in water buckets.
- All dogs at Sonoma Horse Park must be kept on a leash and should have no contact with horses.
- Avoid sharing equipment including tack, buckets, and brushes.
  - If equipment is to be shared it must be thoroughly scrubbed between horses.
- Horses should have labeled dedicated water and grain buckets to avoid exchanging this equipment amongst horses.
- Do not allow horses to drink directly from the water hose.

Please initial to confirm or answer the following questions for EVERY horse noted in the above list. Seven days prior to arrival for the SHP Summer Classic (July 27-31) or Giant Steps Charity Classic (August 3-7).

#1 \_\_\_\_ I confirm that each horse has current vaccines for influenza and EHV. Please see below for the required vaccine format and submission details.

#2 \_\_\_\_ I confirm each horse above will have temperatures monitored once daily for three (3) to seven (7) days prior to arrival at the Park. If a temperature above 101.5°F is detected, that horse will not be brought to the Sonoma Horse Park.

#3 \_\_\_\_ I confirm each horse has been in good health and had no signs of respiratory distress or neurological symptoms in the seven (7) days prior to arrival at the Park.

All of the above-noted horses entering the Sonoma Horse Park are currently healthy and have not displayed a temperature of over 101.5°F in the seven (7) days prior to entering the Sonoma Horse Park. Additionally, these horses' temperatures have been monitored once daily for three (3) seven (7) days, and a [Temperature Log](#) will be provided to Sonoma Horse Park management at the time of arrival. Throughout showing at the Sonoma Horse Park all horses' temperatures and overall health will continue to be monitored.

All vaccine records must be submitted on veterinary letterhead and signed by a licensed veterinarian or organized using [USEF Vaccination Form](#). Submitted information must clearly indicate each horse attending the show by show name and the dates vaccines were administered.

At any time throughout this show horses are subject to examination by Park designated representatives and/or State Animal Health officials. If after such examination it is believed that the health condition of a horse will place other animals at risk, the horse and others that have been infected/ exposed may be isolated in the designated on-site isolation locations, or, if necessary, require removal of the animal from the facility.

I take full responsibility to report immediately a temperature above 101.5°F or any signs of respiratory distress or neurological disease to the Sonoma Horse Park management by texting or calling (415) 359-5455.

- The on-call veterinarian is Dr. Don Smith, DVM (510) 812-9275.

In recognition of the potential exposure risk attending any competition poses, and in an effort to support minimizing the risk to horses at home facilities and those that are onsite at the Sonoma Horse Park, we are asking every barn to identify their quarantine arrangements should there be an exposure during the competitions held at the Sonoma Horse Park.

Please complete the information below; if you do not have access to a place to complete isolation if there is an exposure, please reach out to us immediately at [sarah@sonomahorsepark.com](mailto:sarah@sonomahorsepark.com) and (415) 359-5455.

- Quarantine facility and address:

---

- Estimate timeframe needed to depart the Park (please circle one):

Less than 24 hours

24-48 hours

More than 48 hours

- Provide additional information related to your quarantine plan:

---

---

\*Completing this form with any false information will result in immediate removal from the Sonoma Horse Park grounds and a \$5,000 fine for each horse that has falsified records.\*

We are incredibly grateful to all of the trainers, riders, owners, grooms, braiders, show staff, and everyone that makes up the team coming together to keep horses safe as we return to competition. Thank you for the role you play in this effort.
